PROFESSIONAL SUMMARY

Experienced data analyst with 2+ years in data analysis, skilled in Python, R, SQL, and data visualization, delivering actionable insights for data-driven decisions.

EDUCATION BACKGROUND

2024-Present: Bachelor of Science (BSc) in Economics and Statistics. KCA University. (In-Progress)

Built strong competencies in statistical analysis, econometrics, and economic theory supporting data science applications.

2023-2023: Professional Program in Data Science, Moringa School.

Covered data science fundamentals including data collection, cleaning, modeling, and reporting, while gaining skills in machine learning and data visualization.

2020-2022: Bachelor of Science (BSc) in Maths and Computer Science. JKUAT University. (DNF)

Developed websites, mobile applications, and statistical models, gaining skills in software development, data analysis, and critical thinking.

2019-2016: Kenya Certificate of Secondary Education (K.C.S.E). Kagumo High School.

Attained grade B- (Minus).

EMPLOYMENT

Freelance Data Analyst | Upwork | January 2024 to Date

Tacked various projects involving web data scraping from online sources, data cleaning, report writing, and data visualization using Microsoft Power BI.

SKILLS

Data Analytics & Statistics: Regression analysis, hypothesis testing, and EDA using Python, R, SQL, and Excel for data cleaning, wrangling, and reporting.

Machine Learning & Engineering: Supervised and unsupervised models alongside data pipelines involving web scraping, preprocessing, and transformation.

Visualization & Soft Skills: Interactive Tableau and Power BI dashboards, translating complex data into clear insights through strong communication and critical thinking.

REFEREES: Available upon request.
